

Call for Papers

MedTex17 & IFBMTM 2017

**International Conference on Medical Textiles &
International Forum on Biomedical Textile Materials**

Donghua University, Songjiang Campus, Shanghai, China
Wednesday-Friday May 17-19, 2017

Papers are being invited for the 2017 International Conference on Medical Textiles and the International Forum on Biomedical Textile Materials to be held at Donghua University in Songjiang University Town, Shanghai, China.

The guiding theme of the conference will be:

"Biomedical Textile & Healthcare Products: their Impact on People's Quality of Life"

Areas to be highlighted include:

- A. Novel materials and biopolymers for biomedical applications
- B. Surface modification and biocompatibility
- C. Medical textiles for protection, comfort and healthcare
- D. Tissue engineering scaffolds
- E. Design, structure and performance of biotextile implants
- F. Quality assurance and regulatory affairs
- G. Biotextiles and drug delivery
- H. Development of *in vitro* and *in vivo* test methods
- I. Performance evaluation using computer models
- J. Infection control with novel antimicrobial agents

Papers on other topics in related subject areas are also welcome.

Submission of Abstracts and Full Papers

A one-page abstract with a title, the name and affiliation of each author and keywords should be submitted no later than **February 13, 2017**. Submissions received after this date will not be given primary consideration for inclusion in the program. Once your abstract has been accepted, please submit the full paper before the deadline of **March 20, 2017**. All accepted papers will be published in the Journal of Donghua University (English Edition). The outstanding papers will be recommended to SCI cited

Biomedical Engineering/Biomedizinische Technik (IF 1.650). Please prepare your abstract and full paper according to the attached format and preferred template.

Program

The program will include five parts. First, a number of **international keynote guest lecturers** will present their invited oral papers. Second, a number of **young researchers** will be invited to give oral presentations of their research work. Third, an important part of the program will involve **poster sessions**, when authors will have the opportunity to discuss their work with attendees as well as with a panel of judges. Fourth, **international companies** will be invited to present topics related to business, marketing, production and regulatory affairs, as well as meet with graduate students to discuss recruitment issues and career advancement. Fifth, as a new feature of MedTex conferences, a **science photo art contest** will be held to display the artistic beauty of biomedical textiles being used in a variety of anatomical locations and biological environments.

Schedule of Events:

By **February 27, 2017**, the first author and/or the corresponding author of each submitted abstract will be advised whether or not their abstract has been accepted for either a poster or an oral presentation.

Awards:

The Academic Committee will invite a number of young researchers who are the authors of certain selected abstracts to give oral presentations at the MedTex17 Conference. These presentations will be recognized for special awards. At the close of the conference the Academic Committee will also give out a series of awards for the most outstanding poster presentations.

Language:

The official language of the conference is English. Please submit your abstract and full paper directly online at <http://www.medtexifbmtm.org>.
